

# Recent and Future FMI & SSP Developments in OpenModelica

Lennart Ochel, RISE

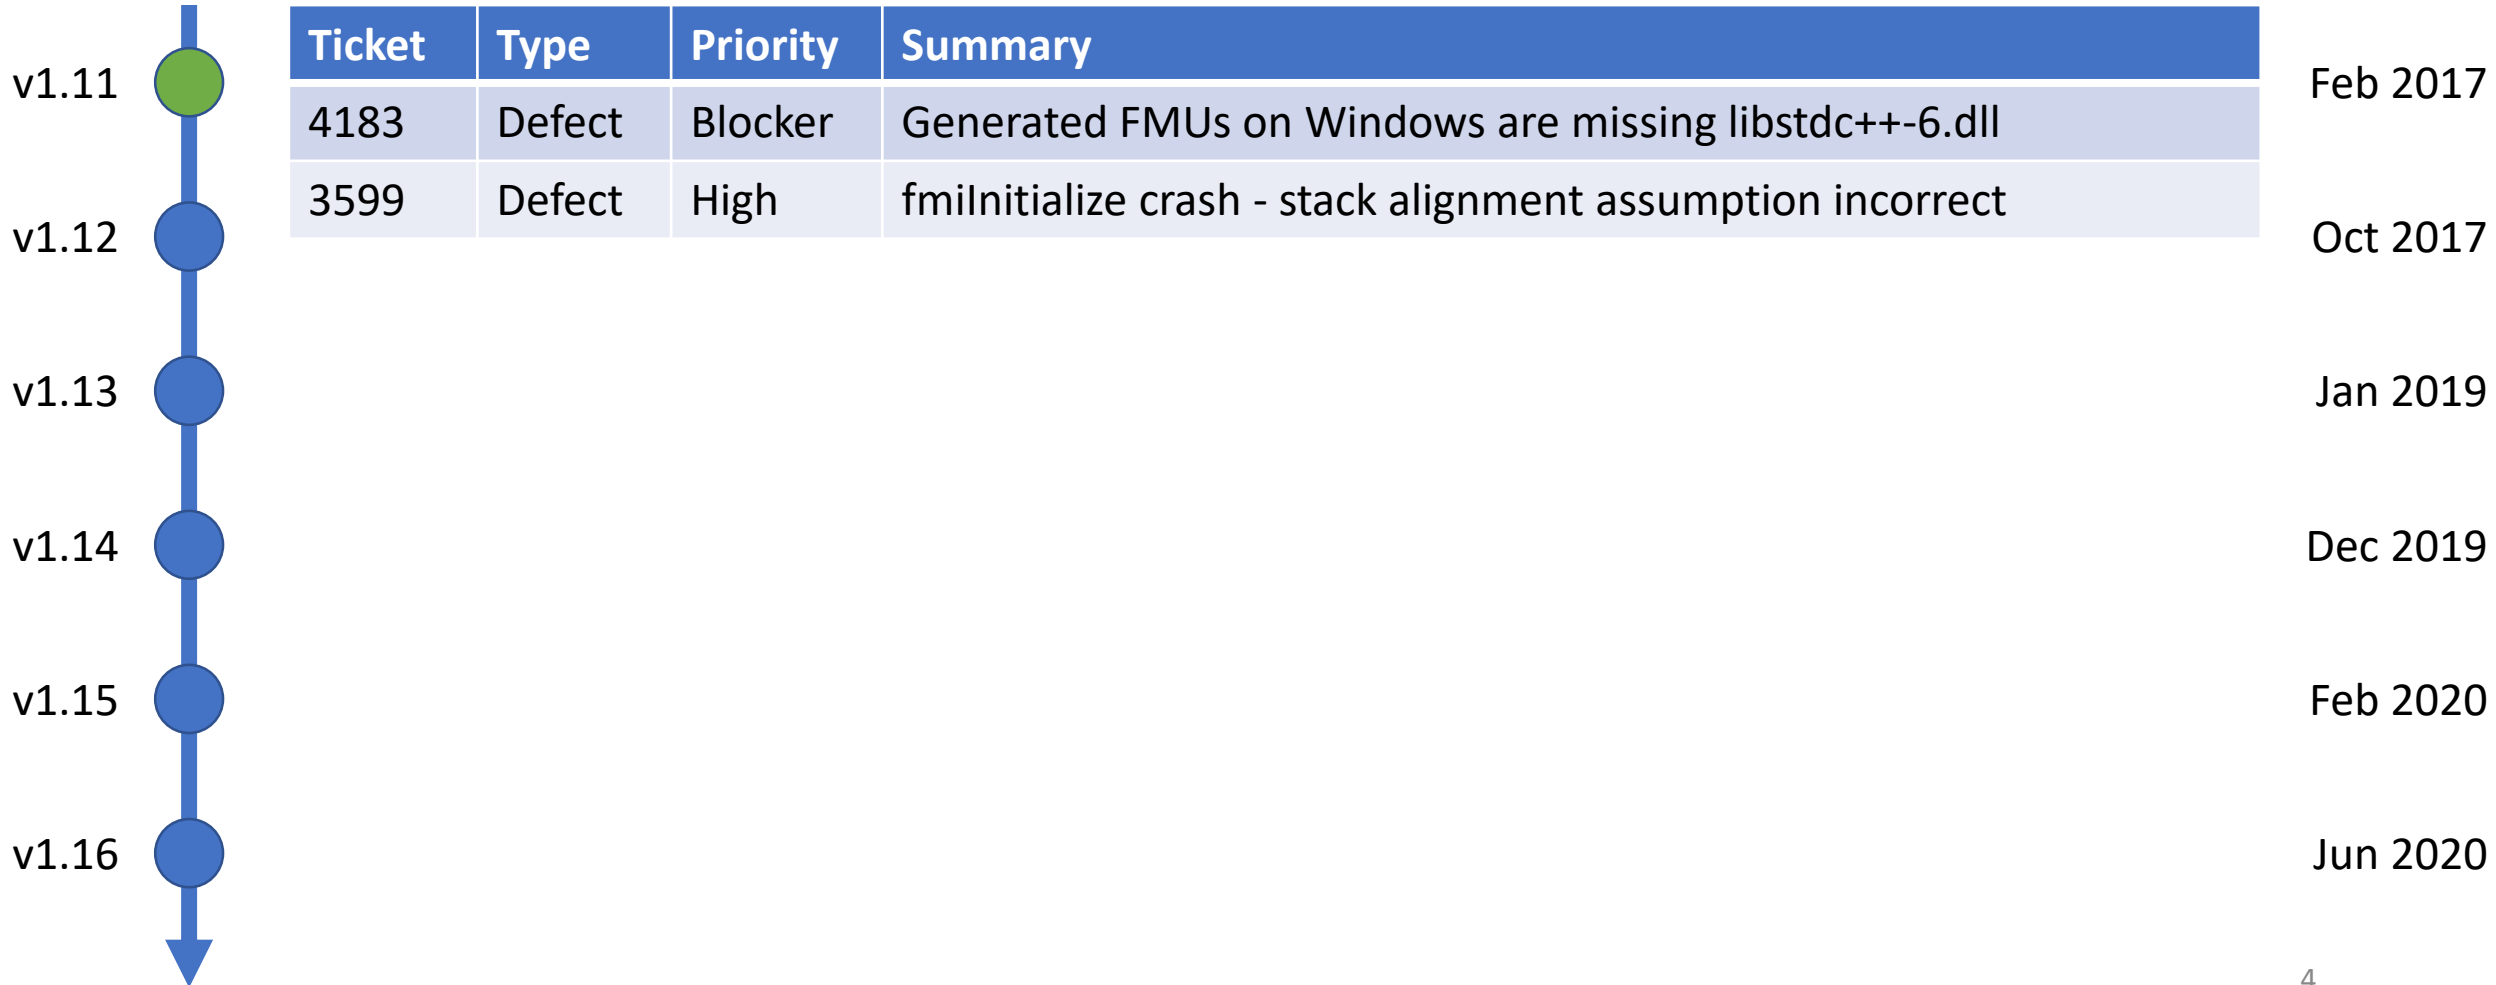

# OpenModelica Releases Overview

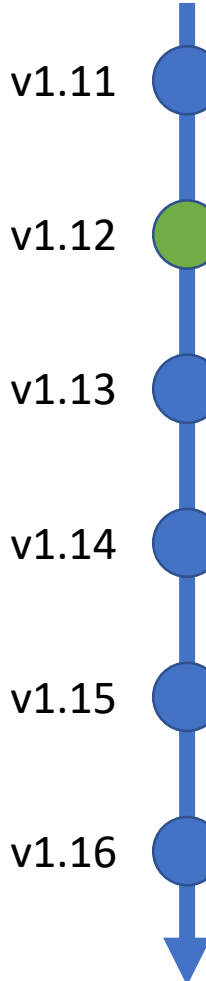

# OpenModelica Releases Overview

# FMI Export

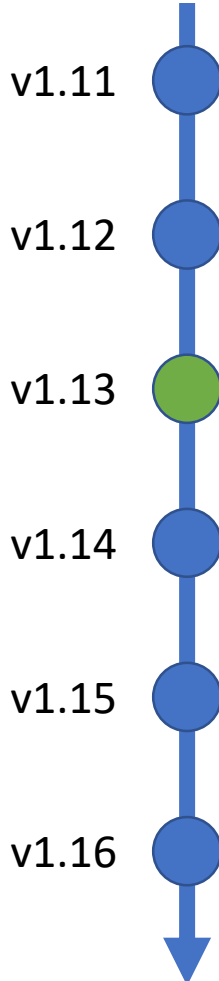

# FMI Export

	Ticket	Type	Priority	Summary	
v1.11	4562	Defect	High	Fix default nominal attribute in FMUs	Feb 2017
v1.12	4529	Defect	Critical	[c runtime] FMI setReal/getReal doesn't work	Oct 2017
	4479	Defect	High	FMU source build fails due to missing lambda functions	
v1.13	4192	Defect	High	Cannot set discrete inputs for Co-Simulation FMU	Jan 2019
v1.14					Dec 2019
v1.15					Feb 2020
v1.16					Jun 2020

# FMI Export

	Ticket	Type	Priority	Summary	
v1.11	5221	Defect	Critical	FMU CS 2.0 sometimes drops events when multiple ones occur between adjacent step times	Feb 2017
v1.12	5219	Defect	Blocker	Wrong outputs in modelDescription.xml	Oct 2017
v1.13	5117	Defect	Blocker	Cannot load exported FMUs in fmuCheck due to missing required DLLs	Jan 2019
	5035	Defect	High	FMI export produces non-FMI-compliant FMUs	
v1.14	4991	Defect	Critical	Too many simulations fail with too long a timeout in the TEST_LIBS_FMI_MASTER Hudson job	Dec 2019
v1.15	4977	Defect	High	Directional derivatives error (FMU for model exchange)	Feb 2020
	4951	Defect	Blocker	OMEdit did not generate the fmu file on FMU export	
v1.16	4675	Defect	Blocker	Statically link libstdc++ on Windows	Jun 2020
	4424	Defect	Blocker	Wrong ModelStructure in FMI 2 modelDescription.xml	

# FMI Export

	Ticket	Type	Priority	Summary	
v1.11	4140	Defect	High	Questionable compiler options (-O0 -march=native) when building FMUs	Feb 2017
v1.12	3903	Defect	Blocker	Generation of FMU broken for several ScalableTestSuite models	Oct 2017
v1.13	3865	Defect	High	OMEdit fails to import a 2.0 FMU that contains both ME and CS	Jan 2019
	3749	Defect	High	Generated FMUs for C and CPP have different names	
v1.14	3035	Defect	High	Rectifier FMU 1.0 in FMU Checker	Dec 2019
	2764	Defect	High	ModelStructure with wrong dependencies for states and without dependencies for outputs	
v1.15	5218	Defect	Blocker	Initialization issue with FMUs and C runtime	Feb 2020
	5293	Defect	Blocker	buildModelFMU does not copy DLL libraries in binaries folder	
v1.16					Jun 2020

# FMI Export

	Ticket	Type	Priority	Summary	
v1.11	5555	Defect	Blocker	FMI export broken if OpenModelica is installed in the Program Files directory	Feb 2017
v1.12	5431	Defect	Blocker	FMU Unable to Find File on Resource Folder in Windows	Oct 2017
	5420	Defect	High	All Opened Libraries Are Included in Resource Folder FMU	
v1.13	4800	Defect	High	[FMI] For the module structure alias for output states are introduced invert them.	Jan 2019
v1.14	2626	ENH	High	Support FMI co-simulation import	Dec 2019
v1.15					Feb 2020
v1.16					Jun 2020

# FMI Export

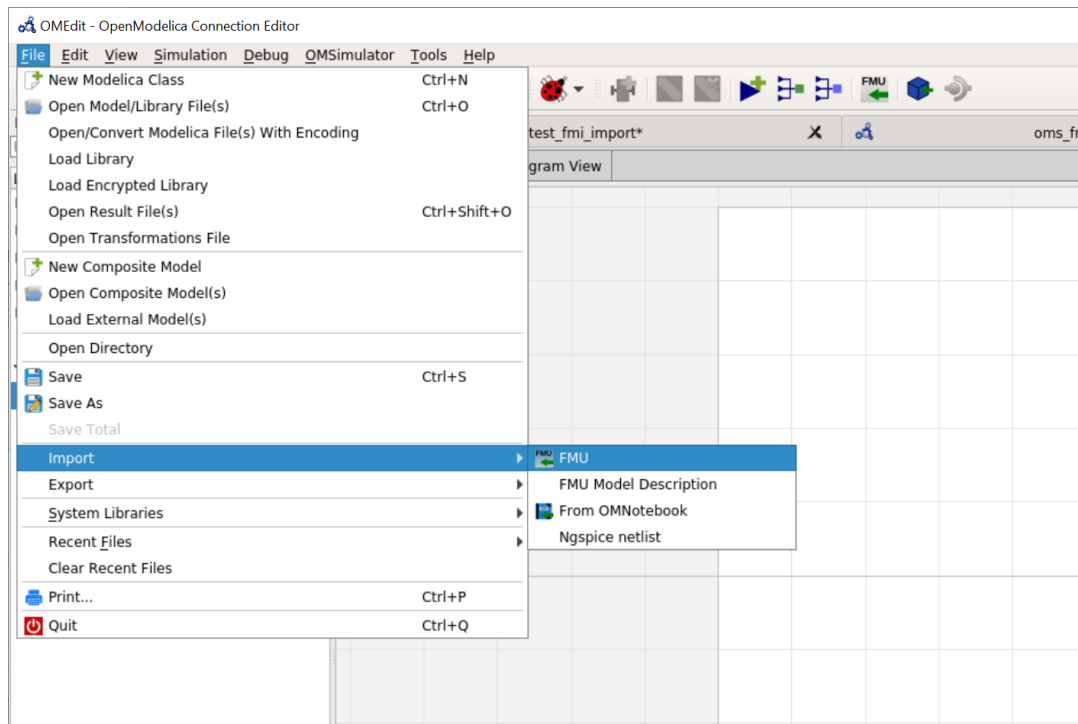

# FMI Export

	Ticket	Type	Priority	Summary	
v1.11	5761	Defect	High	Symbolic Jacobians not correct for Linearization and FMI	Feb 2017
v1.12	5670	Defect	Normal	FMU export with 'output Integer' not FMI conform	Oct 2017
	5586	ENH	Normal	FMU info	
v1.13	3786	Defect	Blocker	FMU export generates an empty ModelStructure	Jan 2019
	2765	Defect	High	Export of FMU 2.0 fails if parameters are used as start values	
v1.14	5802	Defect	High	handling of causality="none" for FMI -2.0	Dec 2019
	+57 open issues				
v1.15					Feb 2020
v1.16					Jun 2020

# FMI Import

## OMC

## OMSimulator

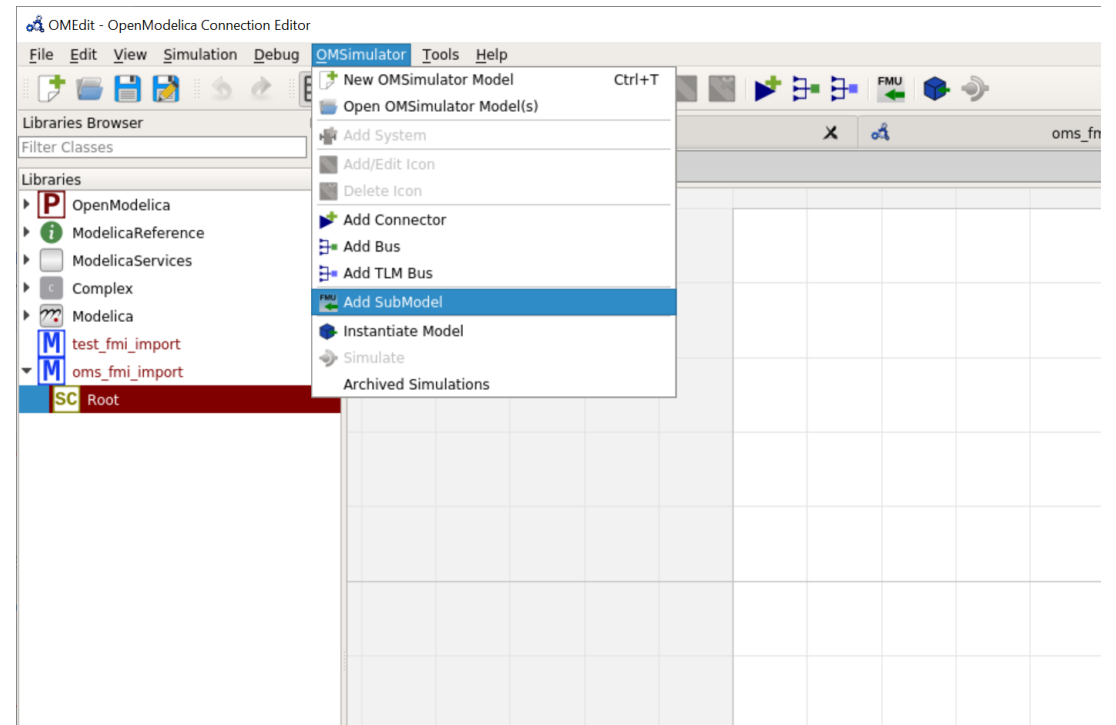

# FMI Import

## OMC

- Generates Modelica wrapper for the FMU
- Uses the external C interface
- Supports only model exchange
- Not portable?

## OMSimulator

# FMI Import

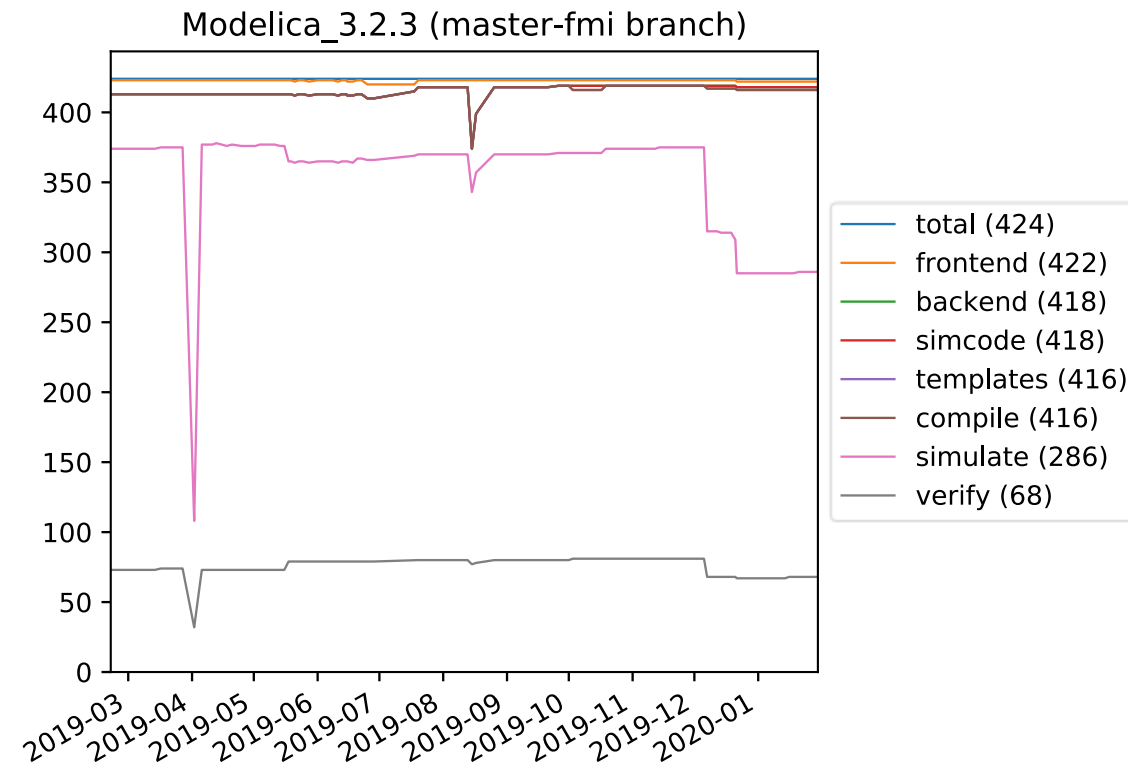

## **OMC**

- Generates Modelica wrapper for the FMU
- Uses the external C interface
- Supports only model exchange
- Not portable?

## **OMSimulator**

- No wrapper code needed
- Uses SSP to describe composition
- Supports model exchange and co-simulation

# Modelica 3.2.3 coverage (using OMSimulator)

# Modelica 3.2.3 coverage (using OMSimulator)

✓ Single FMU simulations

✗ FMI API (inputs, parameters, ...)

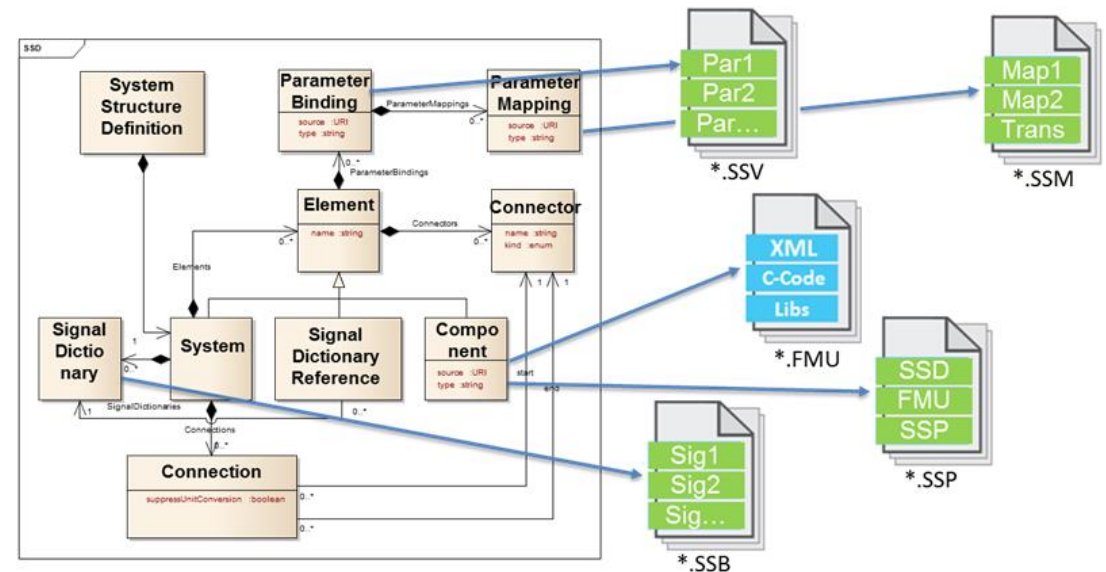

✗ Composite models

# SSP Export & Import (System Structure and Parameterization)

- Initial support of SSP in v1.13
- Pre-release version  
“Draft20180219”

## Goals for v1.16

- Adapt to the official release of  
SSP 1.0

# Future Developments: FMI 3.0

## **Ports and Icons**

Help the user to build consistent systems from FMUs and render the systems more intuitively with better representation of structured ports (for instance busses and physical connectors) in the modelDescription.xml.

## **Array variables**

Allow FMUs to communicate multi-dimensional variables and change their sizes using structural parameters.

## **Clocks and Hybrid Co-Simulation**

Introduces clocks for synchronization of variables changes across FMUs. Allows co-simulation with events.

## **Binary Data Type**

Adds an opaque binary data type to FMU variables to allow, for instance, efficiently exchanging of complex sensor data.

## **Intermediate Variable Access**

Allow access to intermediate input and output values between communication time points from the FMU to disclose relevant subsystem behavior for analysis or advanced co-simulation master algorithms for enhanced numerical stability.

## **Source code FMUs**

Adding more information to the modelDescription.xml file to improve automatic import of source code FMUs.

## **Numeric Variable Types**

Adds 8, 16, 32 and 64-bit signed and unsigned integer and single precision floating point variable types to improve efficiency and type safety when importing / exporting models from the embedded, control and automotive domains.

## **Extra directory**

Adding a new folder in the ZIP Archive representing an FMU, providing additional data to travel with the FMU which can be modified by different tools, allowing for layered standards

# Future Developments: SSP 2.0

- Adaption to FMI 3.0 (e.g. ports, arrays)
- Modelica model as component
- Simulation information/setup
- Examples

# Outlook

## **v1.16**

- Become compliant to the current FMI standard
- Fix/Improve FMU logging
- Fix event handling
- Adapt SSP import/export to SSP 1.0

## **Future**

- Performance, stability, accuracy
- FMI testing environment
- Deepen integration of omc and OMSimulator
